Brand Introduction

Introduction

Welcome to the brand identity book for *Michi Clinic*

This guide serves as the cornerstone of our brand's identity, providing a comprehensive overview of who we are, what we stand for, and how we communicate our values and mission to the world.

Brand Personality

Brand Personality

Welcoming

From the first touchpoint, Michi feels like a friendly guide, not a distant medical authority. The tone is open, reassuring, and approachable.

Professional

Michi balances expertise with empathy. While treatments are evidence-based and precise, communication always acknowledges the human side of beauty.

Premium

The brand projects exclusivity and refinement without alienating people. Premium here means quality, trust, and thoughtful design, not extravagance.

Youthful

Michi feels alive, modern, and current. It connects with women at different life stages with optimism and energy—without resorting to fads or flashy trends.

Tone of Voice

Calm & Reassuring

The clinic’s voice should always make clients feel safe, comfortable, and cared for. Messages are steady and supportive, like a trusted guide.

Example:

“You’re in good hands. Every step of your journey is supported with care and attention.”

Knowledgeable but Approachable

Michi speaks with authority rooted in science, but never in a way that feels intimidating or overly technical. It’s confidence paired with warmth.

Example:

“Our treatments are grounded in science—designed to feel right for you.”

Empathetic & Supportive

The brand recognizes that beauty is deeply personal, tied to self-esteem and confidence. It listens, understands, and tailors care to each individual.

Example:

“Every skin story is different. We’re here to understand yours.”

Logo Design

Logo Concept

This logo captures the essence of a personal, evolving path—one shaped by care, guidance, and confidence.

Drawn from the kanji michi (道), its flowing form becomes a metaphor for how beauty unfolds gradually and uniquely in every individual.

Logo Design

Logo Type

Placed between the wordmark, it acts as both a connector and a visual anchor, communicating the clinic’s role in guiding clients gently through each stage of their beauty journey.

The refined serif typography balances elegance with approachability, reflecting Michi’s blend of clinical expertise and human touch.

Logo Design

Logo Proportion

Clear space is defined by the height of the central symbol, ensuring the logo always feels uncluttered and legible across all applications.

The proportions maintain a sense of elegance and stability, reflecting the brand’s calm, reassuring presence.

Logo Design

Logo Variations

The Michi Clinic logo is designed with flexibility in mind, ensuring it adapts seamlessly across different applications while maintaining its integrity and recognition.

Each variation keeps the path (michi) concept at its core, allowing the brand to remain consistent while adapting to different formats and contexts.

Brand Colours

Brand Colours

Together, the palette strikes a balance between professional precision and emotional warmth.

It avoids sterility often associated with clinics, instead evoking a premium yet human touch, aligned with the brand traits of being calm, supportive, and elegant.

Tracking & Leading

The role of tracking and leading has a great impact on readability. The arrangement of letters that are too short or too long in a word will affect the speed and comfort in reading.

Similarly, Leading that is too small or too large will make it longer for the eye to find or connect the existing words.
